In the list above the names with an asterisk are included with the original subscribers in the 1865 list; the others are in a list of their own at the end of the 1865 list but without explanation and not in alphabetical order. All have their address as Dundee unless otherwise indicated. The entries for the Swan Brothers and the Strong Brothers would be counted as one entry each in the 1863 list, had they been included. The total number of new subscribers missing from the 1863 list is 33.
